About Us

Aditya Packaging & Consulting Services Pvt. Ltd. is a name of repute in the field of industrial packaging & corrosion prevention solutions. We have a solid experience of 15 years in this business and have made a mark in the field.

Our focus on innovation and a highly motivated team with excellent technical knowledge and experience have made us one of the fastest growing manufacturers of rust prevention solutions; Oxygen Barrier Bags, Moisture Barrier Bags, Barrier Locked Bags etc in India.

We believe in adapting cutting edge technology and keep evolving with the times. With an understanding that every customer's needs are unique we consistently introduce innovative packaging solutions to meet the requirements of even the most demanding and quality conscious customers.

ADITYA PACKAGING & CONSULTING SERVICES PVT. LTD. has become a single destination of complete packaging solutions at affordable prices. We are a key Manufacturer, Supplier and Service Provider of a durable collection of Tough Brown Bubble Envelope, Coloured Bubble Envelopes, VCI Bags, UV Stabilized Silpaulin Bags/Covers and Aluminum Laminated Barrier Bags. We are also a major Distributor and Trader of Humidity Indicator, Bubble Envelopes, Plastic Bubble Envelopes, Humidity Indicators, Silica Gel And Clay Desiccant, PP Strapping, Bubble Roll, etc. We have been offering products of STORO pack India, Harita NTI, Sri Krishna Packaging, Nutan Timbers, Chemical India and other reputed companies. Our products and services are highly valuable in the market due to maximum satisfaction, performance and efficacy.

Our Achievements

Since inception, we have executed varied jobs and faced many challenges for Indian & Foreign companies. Today, we have earned the trust of more than 125 customers, all over the globe. Following are some of our achievements:

Doing packing for Nuclear Power Corporation for 4 years on regular basis

Executing long-term protection packing for Indian Navy

Executed re-preservation work for highly costly spares like Turbine Rotors at Refineries as well as Power Plants

Doing anti-corrosive packing for oversize jobs with length up to 120 feet and dia up to 20 feet.
